# MAX MITCHELL INDICTED

The photodiagram shows the South End gun fight which resulted in the death of Patrolman Daniel J. McSane, who was one of 50 officers in a battle with Renzi Murray, a 62-year-old negro. Murray surrendered after the desperate fight, in which riot guns were used.

Windows at 17 Wheeler st. were shattered in the police siege of Murray's refuge.

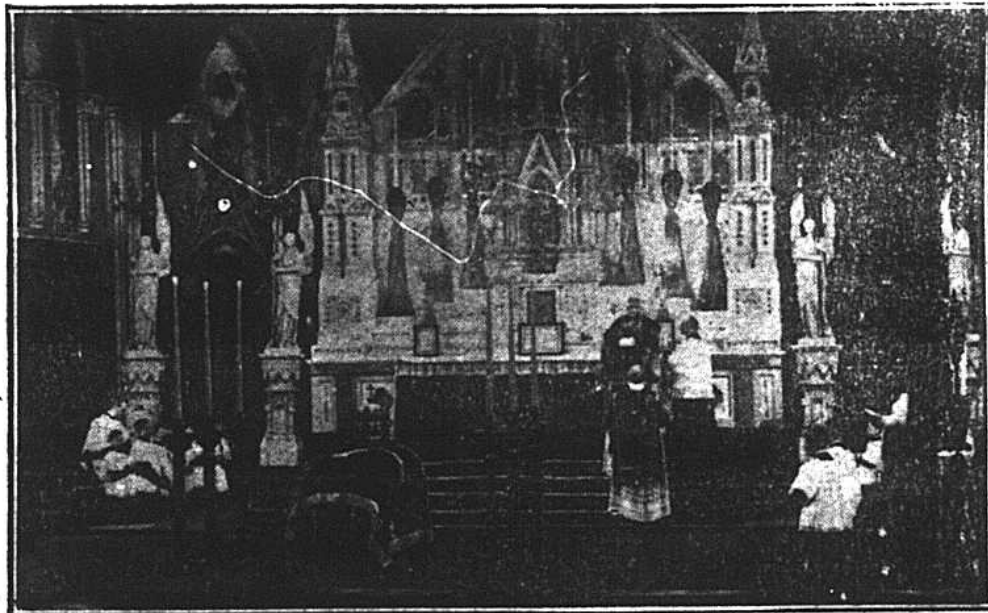

**SEIZE QUARTER OF MILLION IN RUM.** New York customs men spilled 1900 cases of whiskey, taken from the "Bertha A.," shown above, (Underwood).

**SEPARATED FROM MILLIONAIRE HUB CLUBMAN.**

Mary Wilson Hale, pretty milliner, is principal in a shattered romance, which in the form of her marriage in 1913 to Robert Sever Hale of Boston was the sensation of Eastern society in 1913. (International photo.)

**PONTIFICAL MASS CELEBRATED AT CATHEDRAL.** Catholics from all parts of the Boston diocese participated yesterday in the mass of requiem for the repose of Pope Benedict's soul, in the Cathedral of the Holy Cross, Washington street.

# GIRL HAD DIRECTOR TAYLOR SLAIN; JEALOUS OF MOVIE STAR

William D. Taylor, slain movie director, is shown here with beautiful Betty Compson, Theodore Kosloff, the Russian dancer, and Neely Edwards, three of his cast in 'The Green Temptation,' which picture proved a notable screen success under Taylor's direction. Police yesterday delved into the murdered director's past life in the hunt for his assassin. The theory that a "woman scorned" was responsible for the crime was one of those hypothetically used.

Mabel Normand is said to have declared that her engagement to Taylor had been broken recently, and that, at the time of his death, they were "merely friends." She was his last known visitor.

**STAR HEARD DEATH SHOT.** Douglas McLean, a neighbor of the dead director, shown above with Victor Lotel in "One Minute," has been questioned by investigators.

**CHAPLIN'S "LEADING LADY" QUIZZED BY PROBERS.** Edna Purviance is shown here with Charlie Chaplin in a scene from their success, "The Adventurer." Miss Purviance broke the news of Taylor's murder to Miss Normand and Mary Miles Minter.

Today

Foolish Rather—Ditto Son  
Foolish Father—Ditto Son  
Comics in the Death House  
The Corset, and Husband

By Arthur Brisbane  
Copyright, 1922, Star Co.

THE President of Princeton University tells fathers of students: "Don't give your boy a private automobile to use at the university." Wise words.

A father who gives his boy too much money, too much luxury, making the boy think himself better than poorer boys, is a poor father.

He cuts down his son's chances by putting conceit where there ought to be ambition.

A manufacturer may deduct from income tax list of repairs in keeping up his factory.

But a farmer may NOT deduct from his income tax what he spends to keep up the house in which he lives.

What is the farmer's house except a factory in which his wife and daughters, working harder than any factory hands, manufacture doughnuts, pies and other fuel to be stuffed into farm hands, to keep the farm going?

Every house not inhabited by a bachelor is a factory in which human beings, needed by the nation, are produced. And all owners of houses costing not over five thousand dollars might be allowed to deduct repairs on the "home factory."

Harry Givner, twenty-five, Fred Slover, aged twenty-six, were killed by electricity by the glorious State of New York on February 2. That's so common you notice it no more than you would the killing of a few savages by the chief executioner if you were visiting a cannibal king.

The new thing in the judicial killing of the two young murderers was a delightful entertainment provided the night before they died.

They and twenty-one others condemned in the "death house" were allowed to enjoy a comic moving picture. And to add an extra comic touch the warden of the prison censored the comic film before the murderers were allowed to see it—as though censoring could make any difference in a film to be shown to condemned murderers.

Our old friend Teufelsdröck might have told you that none of us is so different from the twenty-three men that watched the comic film in the death house. We are all in a kind of death house, waiting here until Time, the great executioner, lets us out.

And life, with its struggles, hopes and trifles, is the "comic film" with which the warden of this prison entertains and distracts us, to keep our mind off the inevitable end.

Paris, discussing the corset with appropriate solemnity, decides that COMFORT is what counts. One lady dressmaker says, "A corset, like a good husband, should give protection without interference." That depends on what you call a "good husband."

Ninety-five per cent. of the cor-

## LOVE CRAZED ACTOR SUSPECT IN FILM MURDER

### NEW UNION INSISTS ON PROGRESS

Organization Just Formed  
Attracts Men and Women  
of All Parties

REFORM MOVEMENT  
GROWING RAPIDLY

"Full Support" Promised  
by William Randolph  
Hearst's Letter

By J. E. WATSON  
Staff Correspondent.

Albany, Feb. 4.—M. H. Hoover, Secretary of the Political Union for Progress in Government, today outlined the policies of this organization. He stressed its appeal to all citizens interested in return of government to the people. Mr. Hoover said:

"There is no politics in our organization in the sense that it is a political party. As stated in its prospectus, made public at the time the Political Union was organized, January 12, this body represents the co-operation of citizens of various political affiliations for progress in government."

"Men and women of all political faiths take active part and still retain their regularity as members of the various national parties."

"The Political Union for Progress in Government accepts as the correct definition of democracy the rule of the whole people expressing their will by their votes."

POWER OF THE PEOPLE.

"Under the bi-partisan system, unaccompanied by direct control, this State has had the rule of the whole people in name only."

"We believe the power of direct action should always be in the hands of the people, to be available when necessary."

"We believe the occasions for the use of this handy weapon of democracy would arise less frequently were the people armed with the initiative, referendum and recall."

"Whether indifference on the part of the old parties to the demand of the public for an improvement of conditions in the State would eventually result in independent party movement is too remote for present consideration or discussion."

GROWS RAPIDLY.

The Political Union for Progress in Government has attracted wide attention and support since its organization here two weeks ago.

The non-partisan character of the organization is carried out in its board of managers, which comprises: William A. Glen, Syracuse, attorney-at-law and lecturer, Republican; Frank M. Bradley, Niagara, president New York Federation of Agriculture, Republican; James C. Brennan, Buffalo, president New York Conservation Association, Democrat; John C. Taylor, Middleport, member New York Horticultural Society and Dairywomen's League, Democrat; Captain Harold F. Fisher, Rochester, civil engineer, Republican; Frank H. Stevens, Ulster, member American Federation of Labor, Democrat; M. H. Hoover, Niagara, Democrat.

Endorsement by the Political Union of the initiative, referendum and recall is a first step toward recommendation for public consideration of other progressive reforms affecting agriculture, industry, conservation, taxation and government.

MR. HEARST'S SUPPORT.

Support of William Randolph Hearst for the program outlined was accorded in a letter sent to Mr. Hoover, January 11. This letter was made public today. It follows:

Mr. M. H. Hoover, Sec., Political Union for Progress in Government, Albany, N. Y.  
Dear Mr. Hoover:

I sincerely believe that the most important matter before our citizenship today is to retain the power of government in the hands of the people and prevent corrupt encroachment by the great wealth

### Mistrangelo of Florence Leads Conclave Vote

Rome, Feb. 4.

By the Associated Press.  
EL MUNDO, under the heading, "The First Indiscretion," is the only newspaper venturing to publish a purported result of what the conclave accomplished in the first day's sitting. This account says that Cardinal Gasparri and Cardinal Luadi, archbishop of Palermo, were leading on the first ballot, with Cardinals La Fontaine and Laurenti next.

The second ballot, according to the newspaper, was virtually unchanged, while the last vote gave a strong majority for Cardinal Mistrangelo, Archbishop of Florence, many votes being lost to Gasparri and La Fontaine.

According to custom, the supply of food sent into the cardinal's conclave is restricted after they have sat three days, and after five days they are served nothing but bread, wine and water.

### FIFTH BALLOT FOR POPE TODAY

By Universal Service.

Rome, Feb. 4.—The deadlock in the vote for a new Pope remained unbroken tonight. When the fourth ballot was taken by the conclave of cardinals this afternoon, with a fruitless result, high Catholic officials believed it virtually certain that a compromise candidate would be selected.

Unless the assembled cardinals have agreed otherwise, the fifth ballot will be taken tomorrow morning.

Watchers on housetops and roofs of buildings near the Vatican and the tense crowds in the great square of St. Peter's twice today saw columns of black smoke roll upward from the chimney of the Sistine Chapel.

Had the smoke been white, the patient watchers would have known that a new sovereign pontiff had been chosen.

Hope revived among the American Catholics in Rome that Cardinal O'Connell of Boston would arrive in time to cast his ballot for the new Pope when the day passed without a selection.

The liner Presidente Wilson, bearing the American cardinal, is meeting with heavy weather. A wireless report received from her captain this afternoon stated that he hoped to reach Naples Monday morning.

### GIRL SAVES 3 CHILDREN IN DEDHAM BLAZE

Selma Peterson, fourteen years old, rescued the three children of Mr. and Mrs. Leon Pillsbury of Herma's avenue, Dedham, last night, when fire threatened the Pillsbury bungalow.

The girl heroine was taking care of the children during the absence of their parents. While giving Doris Pillsbury, the youngest of the children, a bath, she discovered the blaze. Virginia and Charlotte, the other two children, were playing in another part of the house, and after wrapping the youngest child in a blanket, Selma led the three children to the street.

### WELLESLEY GIRL FIRST TO WIN ART PRIZE

Philadelphia, Pa., Feb. 4.—After the art jury had viewed the 117th annual exhibition of the Pennsylvania Academy of Fine Arts today, it awarded the Stimson prize of \$100 to Miss Mildred E. Sartelle of Wellesley, Mass., a student.

She is the first girl to have been so honored.

### LEXINGTON POSTMAN REPORTS FIRST ROBIN

Lexington comes forth with signs of Spring.

M. Joseph Vaughan, a letter carrier attached to the postoffice in Lexington, reported seeing a large red-breasted robin hopping about on a lawn on Winthrop road.

### ARRESTED AT SOCIAL FUNCTION

Wife of Rich Brockton  
Man Charged With  
Larceny

ARRIVAL OF POLICE  
HALTS DANCING

150 Society Women See  
Mrs. Aria MacMillan  
Taken in Custody

A group of 150 Brockton society women attending an exclusive dancing party in that city witnessed the spectacular arrest of Mrs. Aria MacMillan, wife of a wealthy and prominent Brockton man, and social leader, on the charge of larceny of a fur coat from a Boston department store.

Two Boston police inspectors, accompanied by store detectives, invaded the exclusive party while it was at its height. Protesting her innocence, Mrs. MacMillan was taken from the building. She was formally placed under arrest at the door.

The women were all gathered in Canton Hall watching a dancing exhibition which was being given by their little sons and daughters, pupils of Miss Mollie Hurley. In the middle of the dance floor at the time were the two children of Mrs. MacMillan, three and eight years old respectively.

There was a flutter of "ahs and ohs" as the little children tripped through their fancy steps. Suddenly there was a stir and in walked inspectors Finn and Flaherty of the Boston police department; Detective Scelfield of the Stores Protective Association and Detective Chace of Brockton.

ENTERTAINMENT HALTED.

As the officers passed through the crowd of society women and approached Mrs. MacMillan, the music halted—a look of wonder rested on every face. Then came the terrible blow—when the officers told Mrs. MacMillan to step outside.

Pale and trembling the society leader arose from her seat in the balcony of the hall and accompanied the officers to the hallway outside. While the music filtered softly out through the hall and the little children danced their prettiest the officers told Mrs. MacMillan what their mission was.

Protests had no effect on the officers and the woman was placed under arrest. The two children were taken from the dance floor and the elder, William, was sent to a moving picture show by his mother.

OTHER THEFTS CHARGED.

The other little child was taken in Mrs. MacMillan's automobile with Mrs. MacMillan's husband. Then the society leader and the officers returned to police headquarters at Boston.

Mrs. MacMillan is the wife of Robert MacMillan, wealthy Brockton man, socially prominent, and the general manager of the Brockton branch of the Standard Oil Company.

They live in a beautiful house at No. 24 Overlook avenue. MacMillan was a colonel in the Yankee Division, overseas, during the late war, and is one of the best known men in Brockton.

According to the police, Mrs. MacMillan has been carrying on a wholesale larceny business for some time among Boston's leading department stores and smart shops.

Mrs. MacMillan was released last night in \$2,500 bail.

### RESCUE CREW FROM SHIP ON MAINE LEDGE

Rockland, Me., Feb. 4.—Captain Fales and several members of his crew were taken off the five-masted schooner Joseph S. Zeman, stranded on Metinic Ledge, by the coast guard cutter Osage tonight and brought to this city. It is expected preliminary work to float the schooner will begin tomorrow.

Realizing cash from an embarrassing situation. Every letter printed in the Boston Daily Advertiser describing an obviously embarrassing moment is worth One Dollar to the writer. See the "Embarrassments" column in the New England's Great Pictorial Newspaper.—Adv.

### Dramatic Scene as Mabel Normand Testifies at Taylor Death Inquest

HERE are Mabel Normand, notable screen beauty, and William Desmond Taylor, \$85,000-a-year picture drama director, who summoned Miss Normand to his home just before the tragedy. She told all about her visit at the inquest.

THEY WERE ONCE ENGAGED, MISS NORMAND SAID

(Photo from Keystone View Company)

### Police Conceal Startling Evidence From the Coroner's Inquest

Los Angeles, Feb. 4.—The invisible spirit of William Desmond Taylor, slain film director, seemed to permeate the atmosphere today at the coroner's inquest over the body, which lay in an adjoining room.

As witness after witness testified, there was written into the official records of Los Angeles County all

that the world knows of his sudden, tragic, terrible death.

The inquest was made in an undertaking establishment, where a curious crowd had gathered to catch a

### JEALOUS OF NOTED FILM STAR

Police Believe Famous  
Actress Was Innocent  
Cause of Slaying

ARE ALSO HUNTING  
NOTORIOUS GUNMAN

But Silk Scarf and Plaid  
Cap Point to Other  
Suspect

Los Angeles, Cal., Feb. 4.—One of the leading motion picture actors of the Hollywood colony is definitely under suspicion as the slayer of William Desmond Taylor, noted film director. And the motive—jealousy over a woman, who is as well known in the realm of the silent drama as he.

These were the latest developments today in the widespread police effort to unravel the tangle of the tragic Hollywood mystery.

There are said to be many striking facts upon which to base the theory of this man's possible participation. They are:

1—His physical characteristics. He, like the man who was seen to come from the Taylor apartment at No. 404B South Alvarado street on Wednesday night by Mrs. Douglas MacLean, immediately following a revolver shot, is about five feet ten inches in height.

2—That man, now believed beyond question to be the murderer, wore a silk scarf around his neck and a plaid cap. The actor whose name has been injected into the case is known to have worn a scarf, and frequently he dons a cap.

3—The actress, who is believed to have been the innocent cause of the assassination, is known to have received attentions from both Taylor and this other man.

4—A few days before his violent end, Taylor received a telephone message. He answered the caller gruffly in two or three monosyllables and hung up. Within five minutes the same man called again. This time Taylor, in a rage, refused to talk with him.

5—Taylor gave orders that this man was not to come on the "lot," the colloquial name for the grounds of the studio.

Long and patiently these facts have been assembled; the police admit that they may mean nothing or every thing.

DEEPER THAN JEALOUSY.

As a working hypothesis, the officers are proceeding in a straight line from the crime to the threshold of the woman, there to find, if the theory is correct, that the motive was something deeper even than jealousy.

What that something may have been remains to be revealed. It is enough for the moment to say that, assuming the suspicion to be correct, the man forced a secret from the actress, and upon learning it went forth with murder in his heart. Many of the ablest among the several police detectives engaged on the case do not link Edward F. Sands, discharged secretary, with the crime. In this case, they argue, the element of motive is lacking.

There are several holding to the opposite view, and they cite these facts in support of their conviction: Sands came to Los Angeles shortly before the murder. The day before the crime he made a threat against Taylor. He was seen in the vicinity of Taylor's apartment not long before the tragic finale.

"But," the doubting police officers ask, "why should such a man, who had twice robbed his employer, and forged his name, have ignored valuable

# POLICE HUNT 'BIG' MAN HIRED TAYLOR ASSASSIN

## FLOOD OF PROTESTS HOLDS UP SOLDIERS' BONUS; R. I. GOVERNOR REFUSES TO CALL OUT STRIKE TROOPS

### OBJECT TO GASOLINE TAX PLAN

Levy on Autos, Tobacco  
and Parcels Post Also  
Strongly Opposed

### SMOOT URGES SALES TAX ALTERNATIVE

Delay of at Least a Week  
Predicted as Result  
of Deadlock

By Universal Service.  
Washington, Feb. 11.—A deluge of  
protests is pouring in upon members  
of Congress against the program of  
special taxes proposed by the House  
Ways and Means Committee for  
financing the soldiers' bonus.

Opposition to the new scheme of  
special taxes on gasoline, automobiles,  
theatrical tickets and increased tobacco  
and stamp taxes, as expressed to Congress  
in protests from all parts of the  
country, caused the tax plan to be  
held up today.

Republican members of the Senate  
Finance Committee and the House  
Ways and Means Committee, meeting  
in joint session to consider the  
proposed new taxes, were unable to agree  
upon any of them. As a result, the  
bonus bill will be delayed at least a  
week while Republican leaders in Congress  
make strenuous efforts to find  
an acceptable method of financing the  
plan of adjusted compensation.

Senator Smoot of Utah proposed at  
today's conference that the sales tax  
be adopted in place of the unpopular  
new taxes. Members of the House  
Committee, however, expressed opposition  
to the sales tax and insisted  
upon the Senate's acceptance of the  
numerous taxes tentatively decided  
upon by the Ways and Means Committee.

#### CAUSES OF DEADLOCK.

Members of the Senate Finance  
Committee refused to agree to some  
of the taxes on the Ways and Means  
Committee schedule, principally the  
tax of 2½ per cent. on undivided  
profits of corporations and the increased  
taxes on capital stock and real estate  
transfers. They proposed that the rate of first class postage  
be increased to three cents, as originally  
recommended by Secretary of the  
Treasury Mellon. The suggestion  
was rejected by the House conferees.

The two committees reached a deadlock  
soon after the conference began. A  
special sub-committee representing  
the Finance and Ways and Means  
Committees was appointed to work  
out a plan of financing. The sub-  
committee is composed of Senators  
McCumber of North Dakota and  
Smoot and Representatives Longworth  
of Ohio and Copley of Illinois.

Senator Smoot and Representative  
Longworth are advocates of the sales  
tax, and are prepared to press the  
adoption of the sales tax as a substitute.

Continued on Page 2, Column 4.

### PETITION TO CONGRESS For Action on Soldiers' Bonus With Sales Tax to Pay It

WE respectfully petition Congress to pass the  
soldiers' bonus act without further delay  
and also to levy a sales tax to obtain the  
money to pay the bonus, for the following reasons:

FIRST: Public opinion throughout the  
United States is undeniably in favor of the soldiers'  
bonus as shown by the decisive majority in  
every State in which a popular referendum has  
been taken: In Maine by 3 to 1; New Jersey by  
3½ to 1; New York nearly 2 to 1; Rhode Island 8 to  
1; Wisconsin 3 to 1; Oregon 2 to 1; Washington  
2½ to 1; and so on.

SECOND: We believe that Congress if per-  
mitted to vote on the soldiers' bonus will favor it  
with even greater unanimity, regardless of party,  
than the popular majority by which the people in  
twenty-two States have already approved it; we  
believe that the soldiers' bonus cannot and ought  
not to be defeated and that the longer it is postponed,  
the greater the injustice.

THIRD: We believe the new tax scheme proposed  
by the Ways and Means Committee is only  
a little less objectionable than Secretary Mellon's  
proposal for three-cent postage and for a new  
three-cents-a-gallon tax on gasoline. Proponents  
of such taxes oppose any soldiers' bonus whatever  
and hope by linking it with such new destructive  
and unpopular taxes to kill the proposition altogether.

FOURTH: If the soldiers' bonus is not only  
right, but inevitable, and if the United States is  
not to lag behind England, France, Italy, Canada  
and Australia, which have already paid liberal soldiers'  
bonuses, then our payment is already long  
overdue, not as a debt (for our debt to the soldiers  
can never be paid), but as a just tribute to the valor  
and the sacrifice of the men who won the war.

FIFTH: The only question that remains is:  
By what system of taxation shall the money be  
raised? Not by bond issues, because it is against  
the traditional policy of the United States to increase  
debt in time of peace. Not by any irritating,  
unreasonable or destructive tax on individuals,  
business or industry, because we already have too  
many such taxes. A small general sales tax will  
raise more than enough to pay the soldiers' bonus.  
It will bear heavily on no one. If the experience of  
Canada and our own Philippine Islands, where  
the sales tax is in operation, is repeated the system  
will meet with such favor that it will become one  
of the approved methods of raising necessary revenue  
after the soldiers' bonus has been paid.

### 14,459 "FLU" CASES IN NEW YORK SINCE JAN. 1

New York, Feb. 11.—The Board of  
Health announced today that since  
the first of January 14,459 cases of influenza  
and 5,149 cases of pneumonia had been reported. Influenza has  
caused 297 deaths and pneumonia  
1,922.

A slight decrease was shown in the  
number of new cases reported today  
as compared with yesterday's figures.

### SENATOR UNDERWOOD REPORTED IMPROVED

Washington, Feb. 11.—Senator Under-  
wood of Alabama, who is confined  
with a severe bronchial cold, today was  
reported much improved.

He probably will be unable to re-  
turn to the Senate for several days.

editor.—Adv.

### SLAYER WATCHED VICTIM

New Clews Involve Mys-  
tery Man Seen Near the  
Film Director's Home

### ANOTHER THEORY IS BLACKMAILING PLOT

Taylor May Have Died in  
Defense of Mabel Nor-  
mand's Reputation

By OSCAR H. FERNBACH,  
Boston Sunday Advertiser Staff  
Correspondent.

Los Angeles, Feb. 11.—The  
startling theory was advanced by  
some of the investigating officials  
tonight that the actual assassin  
of William D. Taylor—  
\$85,000 a year movie director—  
was employed by a powerful man  
in the motion picture industry.

It is their theory that the assassin  
may have been checking up on the  
film directors' movements for sev-  
eral nights before his opportunity  
came to strike the death blow.

These officials go so far as to specu-  
late that the man who may have  
employed the assassin was so well  
known that he could not afford to be  
seen near the house when the crime  
was committed.

If, in fact, a certain man powerful  
in the motion picture industry is  
found to have been involved, then it  
will occasion no surprise amongst the  
police who are checking up on him  
that he should have employed an assassin.

Against this it is contended that no  
man, particularly one in the position  
of the magnate referred to, would  
risk placing himself within the power  
of the other.

However, it is pointed out that men  
have employed assassins before this  
and that it proved to be very much  
against the interests of either class  
to expose the other.

#### PRIVATE SLEUTHS QUIZZED.

It is because of this probability that  
inquiries are being made of private  
detective agencies of the city, espe-  
cially the more obscure and least re-  
putable, to find if their operatives were  
ever employed to watch Taylor and, if  
so, by whom.

It will be remembered that on the  
morning following the murder the  
tracks of a man were found in the  
alley, and nearby were several cigar-  
ette ends. It was concluded then,  
and the supposition has never been  
disproved or discounted by any evi-  
dence secured since that time, that  
the man who stood there long enough  
to smoke six cigarettes was watching  
Taylor's house.

Dwellers in the vicinity saw another  
man two nights before the murder.  
His attention was centered on the  
Taylor home.

Has Mabel Normand, film actress,  
who last night was killed for nearly  
four hours by District Attorney Wool-  
wine in his quest for light on the  
murder of William Desmond Taylor,  
told all that could in any way have  
a bearing on the mystery?

This was the question uppermost  
in the mind of Woolwine today as  
he resumed his investigation of the  
killing of the film director. And  
the district attorney admits that as

### Friends Betrayed Into the Hands of Enemies

THE New York Tribune, pro-British, states in its headline  
of the Washington Disarmament Conference:  
Great Britain Satisfied With Washington Con-  
ference.

The New York Times, not pro-British but distinctly pro-  
international-banker, says in its headline:  
Japan Gains Most in the Conference.

There is no question that these headlines tell the truth, the  
truth which the New York American has maintained all along.  
Great Britain and Japan are the ones who gain in this  
conference, the ones who are going home satisfied.

England, a naval empire, and Japan, a militaristic empire,  
have won all the points at the expense of the Republic of France,  
the Republic of China, the Republic of Russia, and the United  
States.

The unfortunate part is that these imperialistic nations have  
gained and the republican nations have lost through the gulli-  
bility or the perfidy of America's statesmen.

You can adopt the word gullibility or the word perfidy, ac-  
cording to whether you believe that our American statesmen  
were hoodwinked by the superior craftiness of the statesmen of  
Great Britain and Japan, or whether you believe our American  
statesmen were persuaded by the international bankers into  
betraying the interests of the American people to satisfy the  
worldwide greed and ambition of the international bankers.

But no matter what you believe, you must realize in the face  
of the facts that the United States has been put in a very dan-  
gerous position by the complete surrender to foreign interests  
that it has made in this Washington conference.

We have surrendered Guam and the fortifications of our  
island possessions, so that the American Navy would have no  
bases for naval operations in case war should ever be forced  
upon us.

We have surrendered the naval supremacy that lay within  
our grasp and which would always have protected us from any  
attack by overseas nations.

We have surrendered even adequate submarine defence,  
which at least would have prevented the landing of hostile armies  
on our coasts and the occupation of our territory by foreign foes.

We have surrendered the adequate development of our mer-  
chant marine, and not even the battleships to be put out of com-  
mission by the decision of this conference can be transformed  
into merchant vessels.

The United States, the one first-class Power of the world, in  
wealth, in potential strength, in strategic position and condition,  
has been transformed into distinctly a second-class Power by the  
subordinate position it has voluntarily taken with regard to Eng-  
land and Japan.

But, worst of all, is the fact that Japan, by the recognition  
formally accorded it in this conference, has been made the domi-  
nant nation among the yellow nations of the world, the militaristic  
leader of a thousand million racial enemies of the white  
peoples.

Not only the people of the United States, but the peoples of  
Europe, the white race throughout the world, will pay dearly  
for this act of criminal folly in times to come.

The great conflict of the world, the true World War, is yet  
to come, and it will be between the yellow race and the white race.

There are twice as many yellow peoples as there are white  
peoples in the world, and to place these yellow peoples under the  
aggressive military leadership of Japan is merely to organize  
them in the way in which they can do the most damage to the  
white peoples when the inevitable conflict finally comes.

With the white peoples divided against each other, fighting  
with each other, starving, killing, destroying each other, blindly  
hating each other—as they foolishly are doing—and with the  
yellow peoples united, as they soon will be, under the skillful  
leadership of Japan, it will not be long until the desperate danger  
of this situation will be obvious even to the dullest mind which  
now lacks the imagination to see it—even to the minds of the so-  
called statesmen who are responsible for the fearful mistakes  
which have been made at the Washington conference.

Truly the Washington conference is an epoch-making one;  
but the era it introduces will probably prove to be one of terrible  
danger, if not disaster, to the white man's supremacy.

WILLIAM RANDOLPH HEARST.

### MILL MEN DEMAND ACTION

Protest Stone-Throwing on  
Eve of New England's  
Big Walkout

### STRIKERS WARNED OF MARTIAL LAW

Fifty Thousand Employees  
Affected by Industrial  
Warfare

Governor Emory J. San Souci of  
Rhode Island yesterday refused the  
demand of textile mill owners of that  
State that he send State troops to  
the Pawtuxet Valley on the eve of  
what threatens to be the largest tex-  
tile strike in the history of New  
England.

Coincident with his refusal to the  
owners, however, he warned Rhode  
Island mill workers in a proclama-  
tion that one more outbreak would  
automatically take into the area a  
sufficient number of national guards-  
men to preserve order. Tomorrow  
is set for a general walkout.

The request for the troops in the  
Pawtuxet valley was made as a joint  
demand by five of the largest textile  
operators of the State at a conference  
held with the Governor yesterday.

Twenty men, representing these  
concerns, gathered in the Governor's  
office and presented him two letters,  
one the joint demand of the Inter-  
locken Company, the Hope Company,  
the Crompton Company and the Ap-  
ponaug Company.

#### DEMANDS PROTECTION.

The B. B. & R. Knight, Inc., the  
largest operators in the Pawtuxet  
valley, presented its demands in a  
letter which called for State troops  
on the ground that "this company  
has refused from the outset and will  
refuse to accept any suggestion that  
it defend itself by the importation  
of large bodies of private guards. It  
does not propose to inflict on Rhode  
Island the condition of private war-  
fare which has too often resulted in  
some States of this country."

Governor San Souci immediately re-  
fused the operators' demand because  
"present conditions do not warrant  
the calling of armed forces. He  
then sent out his proclamation, warn-  
ing the mill workers against acts of  
violence.

The proclamation calls attention to  
the fact that "riotous assemblies of  
persons in the towns of Warwick,  
West Warwick and Coventry have  
presented, by force, necessary work  
and have stoned and intimidated men  
engaged in such work," and "that the  
lives and safety of persons have been  
threatened by these tumultuous as-  
semblies."

Governor San Souci then called at-  
tention to the facts that such acts  
were a direct challenge to law and  
order, and "I hereby announce that  
in case of any further overt acts of  
violence, or interference with persons  
in the lawful pursuit of work or busi-  
ness, or if property or persons are  
further menaced, I shall immediately  
send sufficient military forces to the  
places of disturbance with ample au-  
thority to act in the emergency."

#### READY TO CO-OPERATE.

Commenting yesterday on the report  
that troops might be sent into the  
area, Thomas E. Harrop, chairman of  
the general strike committee of the  
local there of the Amalgamated Textile  
Workers of America, said that the  
strikers in Natick, R. I., would be  
ready to meet the troops on Natick  
flats at any time they should appear  
in the Pawtuxet Valley.

Organizer James A. Dick of the  
Amalgamated Textile Workers said:  
"We believe the rioting situation is

Copyright, 1922, Star Co.  
T Syracuse University twenty-one young men and women tried to answer this: "Why is love blind?"

The real answer is that far from being blind, the power that draws men and women together is far and clear sighted. Men call it blind because THEY, the men, are not allowed to choose. They wake up from a queer hallucination and find themselves married. Nature sees clearly, knows more than men about the human race and its needs.

Tall men marry short women; stout, calm ladies marry thin, nervous men. Intelligence marries foolishness, and women, nine times out of ten, marry their moral inferiors. Thus the race is kept balanced, running along on a constantly mixing basis that prevents disastrous production of a super-race, able to rule all others.

In Oklahoma, on a poor farm, near Bristow, old men and women shiver in winter, sit in the sun in summer, glad that they may die slowly, without worry. And on that farm an old well, just tapped, spouts up thirty-five hundred dollars a day. What would be your comment on that, if you were interested in contrasts?

In Georgia, near Valdosta, a negro is lynched. He forced his way into a school house, killed a little girl and wounded a boy fatally. A crowd, enraged, surrounded and shot him to death, ignoring his plea for a regular trial.

What would you say about that, AFTER being told that the lynching mob was made up entirely of negroes? Men imitate each other, and under certain circumstances take the law into their own hands. Read Shaler's book on the mob and you will understand things that puzzle many.

The city of Boston has engaged a professional press agent. Wise Mayor Curley, intelligent publicity is what every concern needs.

City, individual or corporation. First have it, then tell about it.

Every business needs a professional advertising director as much as a ship needs a pilot. The man who says, "Oh, I know how to advertise my business," is as foolish as though he tried to steer a ship through Hell Gate. Publicity is a SCIENCE, exact, and every day making new discoveries.

Mr. Bok offers Mr. Hoover, out of Bok's own pocket, \$50,000 a year for five years, if Hoover will manage the Philadelphia fair of 1926 to celebrate the 150th anniversary of the Declaration of Independence. Mr. Hoover could afford to pay Mr. Bok much more easily than Mr. Bok can afford to pay Mr. Hoover, but that's another story.

Can you, young gentlemen of sixty and up, realize that "the centennial" in Philadelphia happened almost 50 years ago. Do you remember Machinery Hall, the Indian camp with many bears, tigers, and Indian canoes, the lake with

# IRISH TROOPS REVOLT; FEAR CIVIL WAR

## POLICE SEEK TAXI MAN TO SOLVE TAYLOR MYSTERY; HAVERHILL MAN SLAYS POLICEMAN AND KILLS SELF

### VANISHED ON NIGHT OF MURDER

Gray Cap Found in Fugitive's Room Proves Important Clue

REVOLVER, LONG UNUSED, GONE

Description of Missing Driver Matches That of Bungalow Prowler

By LEE ETTLESON.  
Los Angeles, Cal., Feb. 19.—Find John Doe, taxicab driver, 32 years old.

This man, whose name hitherto has not been mentioned in connection with the murder of William Desmond Taylor, film director, has been the subject of more than a week's search. His name, known to the Boston Sunday Advertiser for days, cannot now be mentioned.

He is wanted for investigation in connection with the mysterious slaying in the white bungalow court on South Alvarado street the night of February 1.

Around him are a set of circumstances which the authorities say he must explain—or stand charged with murder.

The Advertiser correspondent for a week has been working on this angle of the most baffling crime in recent years. Through a tip from the taxi-cab company for which this man was working, it was learned that he had disappeared.

**WOMAN INVOLVED.**  
Though it is believed that Captain of Detectives David L. Adams and Detective Sergeant Lloyd and Roberts, Jr., have been busy trying to find this man and investigating his actions previous to his disappearance on the night of the Taylor murder, these officers refuse to discuss the matter or to give out any information about the search.

From other sources and its own investigation, however, the complete story was learned.

And back of it is the old, old story of a woman's passionate dread of losing her man.

From this woman, who is known as the man's wife, it was discovered that the entire investigation had emanated from an outwardly uninteresting "missing" report, the details of which, however, apparently caught the eye of Detective Sergeant Lloyd and Roberts.

Though Captain Adams and his man would not discuss the situation, it is

### Miners to Vote on Order for Strike April 1

Indianapolis, Ind., Feb. 18. GENERAL suspension of work by union coal miners on April 1, subject to a referendum vote of the union membership, was ordered late today by the convention of the United Mine Workers of America unless new wage agreements are readjusted before that date in both the bituminous and anthracite coal fields.

The convention approved demands for the retention of present basic wages for soft coal miners and increases for the hard coal miners.

Renewal of the demand of miners for a six-hour day five-day week was adopted as a part of the policy of the new wage agreement.

### 3 FALL THROUGH ICE, ONE DROWNS

Willard Beal, ten-year-old son of John B. Beale of Whitehead avenue, Hull, was drowned late yesterday afternoon in Hull bay.

The dead boy's brother, John Beale, Jr., thirteen, by heroic work, saved Edward Haley, twelve, of Island View road, Sacramento Hill, and himself. The boys broke through while returning across the ice in the bay from World's End, Hingham, to their home on Hampton Hill, Hull.

John, lying flat on a cake of ice that was being swept rapidly toward the sea, succeeded in using his hands as paddles and to land. Running three-quarters of a mile to his home, he told his father of the accident.

Chief Ryenolds, Sergeant Stevens and Patrolman Glawson of Hull answered the emergency call with an ambulance. The Haley boy, badly frightened and nearly exhausted by the intense cold, was still clinging to the ice cake. The police reached him in a boat and got him into the ambulance in time to save his life. The body of Willard was recovered.

### NERVIEST BANDIT IN LAWRENCE GETS \$100

Lawrence, Feb. 18.—The nerviest film-film man is being sought tonight by police.

Hatless and in his shirt-sleeves, he walked into a department store, went to the cashier's office on the second floor, presented a \$100 bill and asked to have it changed.

The girl in the cage took the bill and counted out ten \$10 bills. The man counted them, looked up and said, smiling, "There's some mistake, isn't there?"

"There certainly is some mistake—just a minute." Picking up the \$100 bill he walked out, taking also the \$10 bills.

LYNN MAN, BEATEN BY ROBBERS, NEAR DEATH

### ENRAGED IN GARAGE DISPUTE

Haverhill Man, Intoxicated, Denied Use of Car, Becomes Murderous

ATTEMPTS LIVES OF TWO FRIENDS

As Second One Falls Dead He Ends His Own Life With Bullet

Haverhill, Feb. 18.—George Duquette, thirty-eight years old, of No. 7 Walnut street, father of eight children, wantonly shot and killed Ralph Gross, a special police officer and ex-service man and then fired a fatal bullet into his own brain at 10:20 tonight.

Duquette had also just fired one shot at another friend of his, Peter Boillard, a manufacturer. This bullet passed through Boillard's coat, but did not harm him.

The shooting followed an argument that started in the garage of Henry Robinson at No. 20 Baltimore street, where Duquette kept his automobile.

**ARGUMENT OVER AUTO.**  
Duquette, obviously under the influence of liquor, entered the garage and demanded his car. There were three other men in the garage at the time, Gross, Boillard, Robinson and Duquette's father, Joseph.

Robinson refused to allow Duquette to take out the car, because he feared that with Duquette at the wheel the machine would become a menace to public safety.

Robinson's stand was supported by the other men. Gross, it is said, was very emphatic in his objections and threatened to lock Duquette up. Duquette pleaded, then threatened and stormed for his car. Robinson refused to let him have it.

Then the four men left the garage and walked down Locust street. Duquette and Gross walked ahead, Boillard and the elder Duquette bringing up the rear.

**FIRES AT BOILLARD.**  
Gross and Duquette kept arguing bitterly until they were within fifty feet of Duquette's home. Duquette then suddenly stopped. He whirled to the rear, pulling a .38 calibre revolver from his pocket and killed Gross.

Duquette stepped over the body, looked at it a moment and, as his father and Boillard started toward him, placed the revolver against his temple and pulled the trigger. He died instantly.

### DENBY MAY BE MADE POSTMASTER-GENERAL

Washington, Feb. 18.—Rumor continues to shift the President's cabinet. The latest Washington gossip is that Secretary of the Navy Denby is slated for Postmaster General to succeed Will H. Hays, and that Colonel Theodore Roosevelt, Assistant Secretary of the Navy, will succeed his present chief.

### REFUSE TO RECOGNIZE GRIFFITH

Limerick Soldiers Declare Against Free State Government Regime

WARFARE DANGER GROWING HOURLY

Allegiance of Brigade Pledged to Republic Leaders

Dublin, Feb. 18.—The menace of civil war in Ireland grew more serious today with the revolt of the mid-Limerick brigade of the Republican army against the present heads of the provisional government.

A proclamation was issued by the leaders of the brigade in which flat defiance was hurled at the provisional government, and the brigade pledged its allegiance to the republic.

The Limerick situation further was strained by the death in a Limerick hospital of John Duffin, twenty-eight years old, who was shot down yesterday by a group of men on a road near the city.

While the residents of Limerick were still talking of this they were further stirred by the news that Special Constable Loughlin McEdeards had been shot and killed by a party of unidentified men.

The only hope of averting the long anticipated clash between the Ulster men on the southern border of Ulster and the Republican forces on the northern border of the southern counties, it was admitted on all hands today, lies in the action of the Joint Liaison Commission, which it was hoped would begin to function over the week-end.

**MEETING TUESDAY.**  
The pressure of the public opinion in the United States is being felt here most acutely. Arthur Griffith today made public the fact that he had received a cablegram of encouragement from Martin H. Glynn, former Governor of New York, and Eamon De Valera has sent a cablegram in reply to Mr. Hearn of Westfield, Mass., treasurer of the American Association for the Recognition of the Irish Republic, asking for the continued support of that organization.

But while the public in Ireland is interested in the minor events of the day the chief interest in public questions is Ireland is centered upon the assembly next Tuesday of 2,500 delegates to the Ard Fheis.

### \$125,000 GEMS UNDER PILLOW ARE STOLEN

St. Louis, Feb. 18.—Sidney Krenge of Krenge Brothers, diamond importers of New York and Chicago, reported to the police today he had been robbed on a train of diamonds worth \$125,000 and which had a retail value of between \$125,000 and \$150,000.

The diamonds were in a wallet which he placed under his pillow in the Pullman.

FACTS ON FINANCE

### America's Hope Rests, Not in Parties or Platforms, But in Men

SECRETARY TUMULTY likens what he calls the trend toward Wilson to the Resurrection and Wilson's defeat in 1920 to the Crucifixion.

Apparently Mr. Tumulty looks forward to the possible election of the Democrats as the second coming of Wilsonism.

Mr. Tumulty is in grave error.

In addition to Mr. Tumulty's remarks being somewhat blasphemous, they are supremely ridiculous.

There is no trend to Wilson or Wilsonism.

There is a trend on the part of a disappointed public away from the Republican Party.

And the reason for that Republican disaffection is simply because the policies of the Republican Administration are almost identical with the repudiated policies of the Wilson Administration.

Wilsonism will be defeated a second time when the people defeat the Republican Party at the polls this Fall, as they certainly will do.

What the people want is to get away from Wilsonism and its policy of foreign complications and to get back to the true American policies of Washington and Jefferson and Lincoln.

When the people voted for the Republican Party at the late Presidential election, it was because that party promised to repudiate Wilsonism and restore the policies of the Fathers of the Republic.

And when the people defeat the Republican party at the next election, it will be because that party failed to keep its promises, failed to repudiate Wilsonism, failed to restore the government to the historic American policy of no entangling alliances with foreign nations.

These facts are so clear that they would be admitted by politicians of both parties did not the international bankers control the politicians of both parties by great contributions to their campaign funds—a fact which politicians do not like to admit.

The people, however, are beginning to know this reason for party treachery and must find a remedy for it.

The public should not again be deceived by mere promises, as they were at the Republican convention in Chicago.

The public must come to realize that party pledges mean nothing unless those party pledges represent the convictions of the nominees; in other words, unless the men who are nominated have proved by their records that their personal principles are identical with the professions of the platform.

To avoid another betrayal, the citizens must abandon partisanship and blind faith in party platforms.

They must depend upon men, and give their support to that party which nominates the most dependable men, the most loyal men, the men with the best records of Americanism.

In fact, the next President is probably in the making now in this struggle on the part of true Americans in the Senate to prevent the nation from being betrayed by the agents of the international bankers into those dangerous and destructive policies of foreign entanglements that our great Washington so earnestly warned us to avoid.

The men who lead this patriotic fight for the historic policy of American independence should be the men to whom the people will turn for the next Presidential nominees.

They are the men who will not lie to them and deceive them, nor make false promises to secure the people's votes and then break those promises to please the international bankers.

They are the men whose public records tell their true sentiments and their permanent principles.

### SALES TAX PLANGAINS IN FAVOR

Majority in House Assured Bonus Project Urged by President

HARDING SUPPORT HAS TURNED TIDE

Massachusetts Delegation Almost Solid for This Way to Raise Funds

By Universal Service.  
Washington, Feb. 18.—With the administration support pledged to the sales tax through President Harding's recommendation of that plan of financing the soldiers' bonus, sales tax advocates in Congress continued to strengthen their lines today.

Preliminary polls of State delegations in the House were made under the direction of Republican House leaders. They disclosed that sentiment is swinging rapidly in favor of the bonus sales tax.

It was stated by a prominent Republican in the House tonight that a majority now seems assured for the plan. The polls showed that gains have been made not only in the South, which voted almost solidly against the bonus two years ago, but also in the North and New England.

The majority of the members of the House, where the bonus sales tax fight will begin, were "on the fence" before the President sent his letter to Chairman Fordney of the Ways and Means Committee advocating the sales tax as the only feasible method of financing the bonus.

**LINE UP FOR FIGHT.**  
These "on the fence" members are lining up for the bonus sales tax, the polls showed. Most of them already favor the bonus, and have announced their support of the plan since the President threw his support to it.

The Massachusetts delegation, a poll disclosed, is almost solidly in favor of the bonus sales tax now. A majority of that delegation was opposed to the sales tax and the delegation was about evenly divided on the bonus question itself before the President submitted his recommendations.

Similar gains were disclosed in other States, notably New York, New Jersey and Illinois. Republican House leaders also learned that many members from Iowa, Kansas, Missouri and other agricultural States, members of the farm bloc, will vote for the bonus sales tax.

The principal opponents of the bonus sales tax have abandoned their plan to prevent adoption of the sales tax by having the cash bonus feature eliminated from the adjusted compensation measure.

The opposition leaders, Representatives Frank of Wisconsin, Knutson of Minnesota, the Republican whip in the House, and Representative Campbell of Kansas, chairman of the House Rules Committee, said today that it would be impossible to eliminate the cash payments.

**BATTLE ON MONDAY.**  
The fight for adoption of the sales tax will be launched Monday night at a caucus of all Republican members of the House. The caucus has been called to consider the question of ordering the House Census Committee to report the reapportionment bill, increasing the size of the House of Representatives from 435 to 460 members, in accordance with the 1920 census.

The delegation from the House that

Labor Headed Down  
A Truce of God  
Life Dear—Reasons  
Everything in Heaven  
By Arthur Brisbane  
Copyright, 1922, Star Co.

BRICKLAYERS agree to change union rules and habits. No more limit to a day's work, no refusal to lay non-union bricks, etc. "Shackles Off Employers," says the headline. The American Federation is not consulted. Each step now is a union labor defeat—important in industrial history. The pendulum swings the other way.

Lloyd George suggests a ten-year truce, all nations of Europe to sign, promising no war and respecting frontiers as they are. It would be the truce of common sense, succeeding the ancient "truce of God" put in practice when kings realized they had done too much killing.

But France says, "No, my army makes me safe. I keep it." And Russia and Germany, outcasts for the moment, say nothing, but do plenty of thinking.

Senator Reed of Missouri wants George Harvey called back. He wants an Ambassador that "can put his legs under British mahogany and still keep his head."

Reed might also ask for Washington statesmen able to keep their heads, when they put their legs under American mahogany, in company with British legs. American officials, here and abroad, seem to become a little crazy, under English influence.

To live still costs 57 per cent. more than it did in 1914—that's official. How do the people out of work live at all? In England one in nineteen gets an allowance from the government because he has no job. How do our jobless manage?

Congress will "investigate" private foreign loans made in Europe by citizens of this country. A better idea would be to stop those loans for a while. Money lent to Europe is to be used there for war or industry. If for war, why lend? If for industry, why not lend here? We have more idle workmen, more silent factories than France, England, Italy and Germany combined.

What with foreign loans at usurious interest, and tax exempt securities here discouraging business investment, our leading industry may soon be the breadline.

Mr. Bryan is not to be senator from Florida, his adopted State. Senator Trammell will be nominated, which means elected, to succeed himself. This will put more conviction into Mr. Bryan's deeply intellectual fight against the Darwinian theories. He KNOWS now that there is nothing in the survival of the fittest.

The Rev. Dr. Norcross, of New York says you will find "every-

# TWO KILLED IN LAWRENCE LOVE BATTLE

## PRINCESS MARY'S WEDDING SLIPPERS NO. 5; BEAUTY WHO WIRED TAYLOR'S WIFE IS GRILLED

### NOTIFIED HER OF MURDER

Authorities Wonder How Girl Got News of Slaying So Early in Day

SHE KNEW VICTIM AS 'PETE' TANNER

Families Had Visited Each Other While Film Man Was in New York

Los Angeles, Feb. 25.—New mystery was injected into the puzzling murder of William Desmond Taylor today when it was learned that a telegram had been sent by a woman stating that Taylor had been found dead in his apartment with a bullet wound "behind his right ear."

The young beauty who sent the wire, according to sheriff's officers working on the case, is Miss Marion Graham of Hollywood, who knew Taylor as "Pete" Tanner in Larchmont, N. Y., years ago. Her telegram was sent at 10:33 a. m. the day Taylor's body was found, to Mrs. George A. Freeman, Shippin's Point, Stamford, Ct., a friend of Taylor's former wife, Mrs. Robins of Mamaronock, N. Y.

It was learned that Miss Graham had been questioned two days after the murder by Deputy Sheriff Joseph Noland and William Fox. On the day of Taylor's funeral she was taken to the sheriff's office and questioned by the same deputies and Chief Deputy Al Manning. All agreed that the story she told absolved her of any guilty knowledge in connection with the crime.

HOW DID SHE KNOW?  
One point on which officials are seeking more light, however, is how Miss Graham knew that Taylor had been murdered in time to send a telegram at 10:33 a. m. Nolan and Manning said that she told them she learned it from newspapers. An investigation is to be made to learn whether some one did not notify her by telephone.

The officials are mightily interested in that person's identity, although Miss Graham knew Taylor and his wife in Larchmont, N. Y., she saw him only once in Los Angeles and the dispatch with which she was notified of the crime seems unusual, they say.

Taylor's body was found by his negro valet, Henry Peavey, at 7:30 o'clock. The doctor who was called said Taylor had died from natural causes. When Charles Eytan, manager of the film company for which Taylor directed pictures, arrived, he insisted that an investigation of the body be made. The corpse was then turned over, and the wound in the side found. That was about 9 o'clock.

Officials working on the case tonight expressed doubt as to whether Miss Graham learned of the crime through the newspapers, and for that reason plan, they said, to question her again. They also plan to question several other persons in the film world to learn why they have been so interested in talking to witnesses before the officials can reach them. Without revealing names they said these persons had seriously hampered them in their work.

Miss Graham's story, as told by Chief Deputy Sheriff Manning follows:

### Conference at Genoa Is Off Until April 10

By the Associated Press. Boulogne, Feb. 25.

AGREEMENT to a postponement of the Genoa economic conference until April 10 was reached by Premier Poincare of France and Prime Minister Lloyd George of Great Britain at their conference here today.

The conference originally was called to meet March 8. Lloyd George said after the conference there would be no necessity for a further discussion of the Franco-British pact, as both parties were entirely agreed as to all its essentials. The pact would be ready for signature in a few days, he added.

### 5 NEAR DEATH SAVING KIDDIES

Ice Breaks Under Rescuers of Two Children in Charles River

After a struggle of half an hour six men rescued two children from drowning in Charles River near the Stillman Infirmary, Cambridge, yesterday. At one time the ice gave way, throwing five of the rescuers into the key water.

The children—Joseph Fitzmaurice, thirteen, and Mary F. Frich, twelve, both of Jamaica Plain—had been visiting their uncle, Timothy Fitzmaurice, of No. 17 Gerry street, Cambridge, and were playing near the middle of the river when an ice gave way.

H. F. Nelson, of Greenfield, Ct., a Harvard student, visiting a sick chum at the infirmary, saw the two children disappear and rushed to the hospital. The screams of the little boy alarmed Edward J. Kelly of No. 14 Foster street, Cambridge; Joseph Miller, R. P. Russell and seventy-year-old Melvin Sedgley, engineer of the hospital, all of whom hurried to the scene.

The ice collapsed beneath the five men. Kelly, who won distinction in another rescue a few months ago, swam near, encouraging the boy to keep his hold on a cake of ice. Her teeth chattering, the girl was swimming about with remarkable composure.

Sedgley obtained a ladder, and this was extended to the children. While they clung to it, others dragged a rowboat over the ice. Patrolman Dominic O'Connor of the Metropolitan Park Police threw a life preserver to the boy.

The children finally were pulled into the rowboat and landed on the Brighton shore. O'Connor rushed them in his auto to the Speedway Station of the park police, where they were treated by Dr. Albert McCauley.

### PRICE OF HAIRCUT CUT IN WALTHAM SHOPS

Reduction of the price of week day haircuts from 50 cents to 35 cents in union barber shops in Waltham, beginning tomorrow, was announced yesterday.

The higher price will remain in force Saturdays.

### GALLIVAN GOES TO URGES SOLDIERS' BONUS

Congressman James A. Gallivan left for Washington yesterday to appear before the sub-committee of the House ways and means committee, which is considering the soldier bonus legislation. He has been confined to his home several weeks with influenza.

### RIVALS FOR GIRL, 16, IN TRAGEDY

Favored Suitor Slain on Street; 4 More Bullets Pumped Into Body

FUGITIVE DROPS IN DUEL WITH POLICE

Dismissed From Girl's Home, Murderer Lies in Wait for Victim

Lawrence, Feb. 25.—Two men are lying dead in the Lawrence mortuary tonight as the result of a desperate pistol duel for the love of a pretty sixteen-year-old girl, Assunta Annaloro.

One of the dead men is Sebastiano Garafolo, thirty-six years old, of No. 831 1/2 Common street, shot down by pursuing officers as he fled from the scene of the fight.

The other, Angelo Campagna, thirty-eight years old, of No. 27 Orchard street, and the favored suitor for the hand of the girl both men loved, has a heavy pistol bullet through the head. Four other bullets were fired into his lifeless body in the street in front of the girl's home.

Early this week, the police say, Garafolo, who was known in the Lawrence Italian district as a "bad man," met Campagna and warned him to keep away from the little grocery store at No. 29 Common street, kept by Mr. and Mrs. Annaloro.

SHOT DOWNS IN STREET.  
The two men clashed then, battling with their fists and feet until they were pulled apart. Garafolo is said to have had much the worst of that encounter.

Tonight Garafolo entered the grocery and talked with Mrs. Annaloro. He became insulting and was ordered to leave. A few moments later Angelo arrived and was admitted and entertained for some time.

As he left the store and walked toward the Church of the Holy Rosary, Garafolo stepped out from a shadow and fired one shot. Campagna clutched at his throat with one hand, flung the other upward and tumbled almost in his tracks.

Then while the crowded street hummed with excitement and women screamed and fainted, Garafolo is said to have raced forward to within a few feet of the body and fired four shots into the form of his rival.

Through the crowd Policemen O'Brien and Barry hurried at the sound of the shooting and screaming.

POLICE WIN DUEL.  
When they were within twenty-five yards Garafolo saw them and ran toward an alley that leads along past the rear of the Holy Rosary Church. The police were close behind and at the mouth of the alleyway the fugitive paused and, deliberately aiming, fired two shots at the leading officer.

Barry replied, shooting into the air and ordering the fugitive to halt. Instead, Garafolo ran down the alleyway, which was dark. The officers ran to the mouth of the passage and opened fire.

Again the fugitive replied, bullets whistling close to the officers.

They fired together and Garafolo tumbled forward on his face.

### COL. D'NN SUCCEEDS DAILY AS ASSESSOR

Mayor Curley yesterday appointed Colonel John H. Dunn, chairman of street commissioners, to serve as acting assessor in place of Edward Ba Dally of Roxbury, removed by the Mayor earlier in the day.

### NEARLY 1,500 GIFTS RECEIVED

Necklace of Pearls and Emeralds From 'Loving Granny Alex'

500 PERMITTED TO SEE BRIDAL GOWN

Extra Guards Keep Curious Away From the Palace Gates

By ROBERT J. PREW.  
Universal Service Staff Correspondent.

London, Feb. 25.—A size five silver wedding shoe will be worn by Princess Mary when she becomes the bride of Viscount Lascelles on Tuesday, although she usually wears size seven and a half.

According to high social circles in the West End the Princess, has small, plump hands, like those of the late Queen Victoria, but her feet are declared to be generously large.

The Princess has always ridden, romped and rowed with her brothers. This is declared to be responsible for her man-sized feet. However, this outdoor life has given her a lovely complexion, glowing with health and the vigor of youth. She has also had to walk through miles of factories, exhibitions and shows of all kinds, as a part of her regular court duties. To enable her to stand the strain of these tours of inspection, she has been furnished with comfortable shoes of a slight oversize. This has allowed her feet to spread.

1,500 WEDDING GIFTS.  
For the wedding ceremony, however, court attendants refuse to accept a seven and a half as a standard size shoe for the princess, and in consequence when she walks slowly up to the altar in the Abbey in her little silver shoes, peeping from beneath the foot edging of her wedding dress, her feet are likely to be badly pinched.

When I mentioned this story today to a lady who chatted with the princess yesterday, she replied:

"Nonsense, Mary wouldn't pinch her feet for anything. She is sensible in such matters, like her mother."

"Gossips will find on Tuesday that the silver shoes the princess will wear are size seven and a half."

Today the total list of wedding presents received by Mary at Buckingham Palace stood just short of 1,500.

The elegant necklace of scintillating pearls and emeralds presented by Queen Alexandra bears a card on which is the following inscription:

"With every good wish for my darling granddaughter Mary's future happiness with her beloved husband, from her loving old Granny Alex."

Commenting on the bride's likeliness for sapphires and diamonds, a prominent lady contributor to the Morning Post writes:

"The sapphire is emblematic of chastity. Diamonds protect the wearer against the danger of poisons and influence personal character—magnanimity, virtue, courage."

5,000 SEE BRIDAL GOWN.  
Regarding the pearls, of which Princess Mary has many, she writes:

"Those eager to preserve the beauty of their bodies should never be without an amulet of pearls. Queen Elizabeth was passionately fond of them, so, too, were the women of ancient Rome."

The princess' wedding dress was delivered at the palace tonight by a tailor, after it had been on exhibition for a week, during which period some 5,000 women were admitted, by ticket, to inspect it.

All through the week the police have stopped callers outside the palace gates. Each day they have thronged the entrances. Most of them are titled.

### Back Bay Mystery Girl Held as Jewel Thief

Miss Anna S. Rusling, arrested at her Beacon street apartment on charge of jewelry larceny from Boston stores.

### COLLINS VICTIM OF BREAKDOWN

Complete Rest Ordered for Irish Leader Carrying Diplomatic Load

By HAYDEN TALBOT.  
Special Cable to Universal Service.

Dublin, Feb. 25.—"Michael Collins is suffering from a complete breakdown."

This was the diagnosis given to me today by Dr. P. J. Ryan after he had made a thorough physical examination of the man on whom the Irish people are dependent for their future.

This statement bears out my previous advice and disputes the views of other correspondents here who have insisted that Collins' illness is of "a diplomatic nature."

I have Collins' own word for it that he didn't sleep a wink on Wednesday night and according to one of his closest friends he didn't close his eyes last night.

The great Irish leader's condition was so bad this morning that his friends ignored his strenuous objections and insisted on having Collins undergo an examination by Doctor Ryan.

Mike undoubtedly has an attack of influenza, aggravated by a nervous breakdown. The latter is declared to be more serious than the specific illness.

### NEWBURYPORT MAN SUICIDE IN CELLAR

Newburyport, Feb. 25.—The body of James Goodwin, of Plummer avenue, was found suspended from a beam in the cellar of his home late today by Louis Woodman, a neighbor, who had been called by the wife of the dead man.

Goodwin came here recently from Northboro, N. H. For several days he had been despondent. He was missed by his wife shortly before noon.

EX-SENATOR MANTLE 70, TO WED GIRL OF 25  
Chicago, Feb. 25.—Lee Mantle, seventy years old, former United States Senator from Montana, admitted today he and Miss Etta Daly, twenty-five, a recent graduate from the University of Nebraska, will be married within the next few days. The marriage license has been taken out.

### Enjoying Cigarette When Arrested; Accused of \$5,000 Larceny

Anna S. Rusling, known as the "mystery widow," intimate of many Back Bay families, and arrested yesterday in her Beacon street apartment charged with theft of \$5,000 worth of diamond rings from Boston jewelers, claims to belong to a wealthy family in the Middle West. The police are delving into her past.

They say she is the cleverest confidence woman arrested in this city in years. They further assert that she is so adept in the art of legede-main that she could palm a ring or other article of jewelry as skillfully as the most seasoned male thief.

Her method, they allege, was to visit a store, announce that she wished to buy a diamond ring, feign uncertainty at the first call, inspect a tray of gems at a second visit and depart with a precious specimen in her palm. For days her identity puzzled the police. Aroused by her alleged systematic pilferings, the Jewelers' Security Alliance engaged the Pinkertons, and the Boston police combed the city.

CLEW FROM PAWNSHOP.  
The first clew was from the pawnshop of Sol Robinson in the West End. Descriptions of the young woman furnished by clerks all tallied. They described her as comely and fashionably dressed, with light brown hair and blue eyes. Then the fragments of evidence linked her with a stenographer named Anna Rusling, arrested six months ago on the charge of larceny of a diamond ring from a girl acquaintance.

Inspectors Dorsey and Augusta and Harry Murray, head of the local Pinkerton office, found Mrs. Rusling puffing a cigarette in her room. While being photographed at police headquarters she asked that her friend, a well-known local hockey player, be notified.

The complaints lodged against her six months ago were adjusted. A minor forgery charge was dismissed. The larceny charge was filed. She was employed as stenographer by an automobile concern at the time. The police claim she confessed to the thefts for which she will be arraigned in Municipal Court tomorrow.

On information which they claim they obtained from her they recovered two rings in Boston pawn shops and two in New York. Clerks of Boston stores identified her at headquarters.

Miss Rusling is beautiful. She is

### HARDING BALKING NAVY CUT

President Insists on Big Force to Man America's Fleet

ENLISTED FORCE OF 80,000 NEEDED

Ship at Fore River Yard May Be Used as Airplane Carrier

Washington, Feb. 25.—President Harding inaugurated an effort today to reconcile wide differences of opinion between the Navy Department and Congress as to the size and cost of the navy for the next fiscal year.

At a White House conference with Republican members of the House Naval Committee and Representative Mondell of Wyoming, the Republican leader, the President, seeking to compromise what some members have described as "the extreme views," is said to have declared that with the size of the Navy fixed by the Arms Conference the total enlisted personnel ought not to be less than 80,000.

Secretary Denby, in outlining department needs to the committee, insisted on an enlisted strength of 90,000 and the present officer personnel, including 540 members of the first class at Annapolis to be graduated in June.

AS AIRPLANE CARRIERS.  
The naval committee was said to be in accord with the President's suggestion that Congress expedite legislation for conversion of two battle cruisers now building into airplane carriers. The sum of \$10,000,000 each has been expended on the cruisers and Admiral Coontz estimated that the two could be converted for \$13,000,000 each, which would be \$18,000,000 cheaper, he said, than building anew.

Vessels which may be selected for such conversion are building at Fore River, Mass., Newport News and Philadelphia, and it was pointed out that by an early start employment could be provided for a number of men.

TOO HIGH, THEY SAY.  
Chairman Butler and other members of the committee insisted Mr. Denby's figures for an appropriation bill, carrying a total of \$250,000,000, were too high, and reports reached the President that a considerable number of House members were demanding a cut so sweeping there might be funds enough in the new Navy bill for only 60,000 men.

In the face of determined opposition to his estimate, Mr. Denby and Admiral Coontz, chief of naval operations, announced they stood pat on their figures.

It was because of this situation that the President called in the Republican committeemen, with whom he conferred for an hour and a half in a general exchange of views.

BASIS OF COMPROMISE.  
The feeling prevailed in some quarters tonight that the President had hit upon an easy basis of compromise, and that he had let it be known he would not approve a bill that might effectually "scrap" the navy below the arms conference point through failure to provide sufficient men to man the eighteen battleships and other craft allotted the United States by international agreement.

The status of the first class at Annapolis was not touched on in detail at today's conference, although it was said the President advocated a sharp cut in the number of men to be admitted each year during the naval holiday.
